

The Rhode Island Health Center Association, in collaboration with the Rhode Island Department of Health and the American Cancer Society, offered a virtual event focused on current cancer screening in Rhode Island. Hear from clinical experts to understanding risk factors for cervical, colorectal and bladder cancers, as well as review recommended guidelines and standardized screening activities that support cancer detection and prevention. Also review current Rhode Island statistics and trends on breast, cervical, colorectal and bladder cancer screening and hear about how programs focused on patient navigation and outreach further support increased cancer screening activities.

*CME credits are available for Physicians after completion of the program. Click [HERE](#) to access the post-program evaluation:

Requirement for CE Credits: By completing this online program evaluation, participants attest to the completion of the online activity. Once all requirements have been met and verified, credits shall be released and delivered via email.

The AAFP has reviewed Cancer Screening in Rhode Island and deemed it acceptable for up to 3.00 Enduring Materials, Self-Study AAFP Prescribed credit. Term of Approval is from 10/06/2021 to 10/06/2022. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
